ZAHNER®

Drop & Lock is one of many solutions from Zahner providing quick, efficient and cost-effective installation of various wall systems. The solution includes structural mullions, anchor systems for attaching to walls, ceilings or structure, and you choice of Zahner wall system. The Drop & Lock system is compatible with various metals and treatments, including Zahner's proprietary Sufaces. All components are CNC cut and ready for installation.

Applications:

- Interior and exterior installations
- New construction, retrofit, or add-on
- This solution accommodates a variety of Zahner's rainscreen, dry seal and vented wall systems.

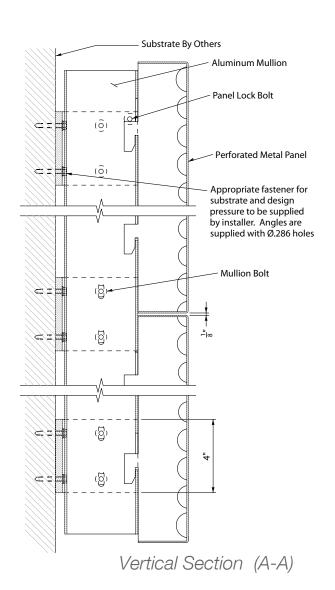

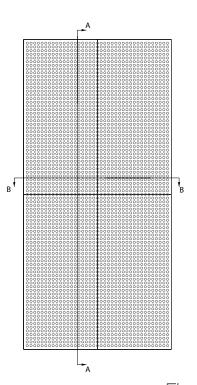

Drop & Lock Material and Finish Offerings:

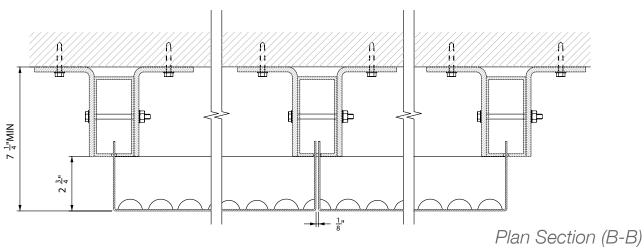

DROP & LOCKTM - MULLION

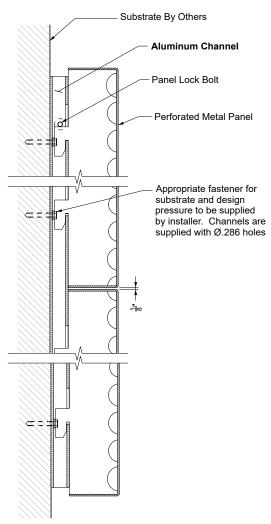

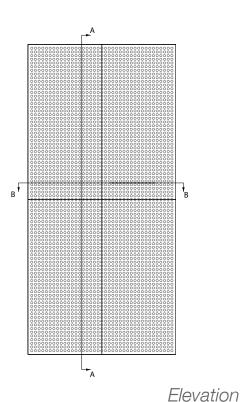

Elevation
